## FAR WAY, SO CLOSE!

Board 32: nobody played for the par that is 6♠X-3. The interesting part regards the overcall by East. There has been a paradoxe here: the people who bid 1♠ (Delimpaltadakis, Pszczola and Percario) reached 5♠ obetaining even a business DBL except for Volcker-Cronier (3♣ Ghestem); all the players who overcalled with a 2suiter (Ghestem or Michael's) didn't reach their aim, likely because when you are vulnerable it wouldn't be so sure what to do after opponent's 6♥ (where is our second trick?).

Certainly you gotta think: often you pass, sometimes you do it for not playing for a huge swing, but in some cases it is exactly what your opponents get. 1 • overcall with 6-5 and 4,5-5,5 losers has got a positive Expected Value? Some simulator will give the answer soon or later. Board 32

## LAURA'S CORNER

#### Interview with Lorenzo Lauria

### Lorenzo, what is the long term impact of the possibility of playing bridge online?

Everyone on Earth right now is living through a distressing time, a dystopian situation. Fighting against boredom, as well as the virus, is one of people's priorities. Our bridge community is lucky because training and competing online partly address the issue: they are a distraction and a welcome comfort. What happened on BBO is a deep wound which may not heal, so I encourage all to be understanding: nobody has ever experienced anything like this and so we are more prone to mistakes that we never thought we would make. RealBridge is a potential solution to go back to playing peacefully, without worrying about trust issues. I say 'potential' because it can be improved and could really be the future of bridge.

#### Angelini disbanded his team in 2016, Lavazza passed away a few months ago. Who are the new sponsors on the Italian bridge scene?

In Italy we have always had a passion for bridge and we have always had sponsors, small and big. Today we are lucky to have Vinci, who is the main one at the moment and I hope can achieve as much as Angelini and Lavazza did in international competitions.

### Could you share one positive and one negative feature of your long-term partner, Alfredo Versace?

As everyone knows, Alfredo smiles all the time, he is always in a good mood. Even in tricky situations, Alfredo does not lose his temper (other than with me). His worst flaw is that he is a liar, but always for the greater good. He can say small innocent lies in order not to hurt a friend. Lorenzo Lauria
